EGAN. With its 500 inhabitants, is located in the famous fertile Sioux Valley. It is in Moody county, 5 miles from Flandreau (c h), on the banks of the Big Sioux river, from which splendid water power is derived. Egan has sprung up from a mere hamlet to a bustling, important town, in the course of only one year, and is possessed of a situation and railroad advantages which will ultimately make it a prominent centre and distributing point. The C., M. & St. P. Ry (S. M. div.), have made it one of their divisions, and have

erected a round house, coaling station, etc. Two flouring mills are in full operation, a weekly newspaper, the *Express*, a bank, 3 churches—Methodist, Baptist and Catholic—with good graded schools, are also here. Many business stores of all kinds, and 4 hotels are now open, and with the expected immigration of the present season, to which this town offers special inducements, the citizens confidently look forward to a boom. The line of the B., C. R. & N. Ry is expected to be extended to this point during this year (1882), which will give the place transportation facilities second to none in the territory. The exports of the locality are flour, wheat, produce and live stock. Farming land is worth from $3 to $15 per acre. Exp., U. S. and Am. Stage to Brookfield tri-weekly. Mail, daily. Sanford R. FARGO. The largest and by far the most enterprising city in Northern Dakota, is situated on the Red River of the North, which is navigable at this point, and on the N. P. R. R. and St. P., M. & M. Ry, in Cass county, of which it is the seat of justice. It was originally settled in 1872, in 1875 it was a mere hamlet; from that time its growth commenced, and in 1880, according to U. S. census it contained 2,600 inhabitants, and now (1882), careful estimates place the population at the large number of 6,000, which is constantly and rapidly increasing. It is a live, bustling city, the receiving and distributing centre of the vast wheat region of the Red River valley, a granary unsurpassed on the face of the globe. The city is pleasantly situated and substantially built, contains many fine business blocks and handsome residences. The chief architectural features are the court house, high school building, banks and hotels. It is governed by a mayor and common council, has efficient fire and police forces, is lighted by gas, and uses the Holly system of water works, is well drained, and in fact contains all the features of a first-class city. The railroad facilities have nearly doubled in the twelve months last past and there is almost a certainty of a like increase before the close of another season. These new lines (St. P., M. & M. and branches) have given a great impulse to the wholesale trade, and now Fargo has houses jobbing in dry goods, groceries, hardware, drugs, liquors, etc., etc., and each branch of business does a large and lucrative trade and is rapidly growing; the manufacturing enterprises are also assuming more importance day by day. The religious facilities comprise 8 churches of various denominations and there are good graded schools. The city also contains 4 banks, 2 daily and 3 weekly newspapers, several good hotels, 3 grain elevators, a chamber of commerce, library and bar

GRAND FORKS. An important city of 3000 inhabitants, the seat of Grand Forks county on the Red River of the North, which is navigable here. It is a junction station on the St. P., M. & M. Ry, being the terminus of the G. F. br., B. br., O. br. and N. L. brs. of that road. Six years ago this now prosperous city was a mere hamlet and steamboat landing. Its natural advantages and the energy of its citizens have made the city what it is to-day, one of the most thriving towns in the Red River valley. A large area of the finest agricultural region in the world is directly tributary to its commerce and is fast settling with a good substantial class of farmers and the probabilities are that Grand Forks will double its present population ere the next edition of this work (1884) appears. Although of but such recent origin, the place is well supplied with stores, shops, etc., 3 banks transact business, 1 daily and 3 weekly newspapers are published, an opera house, 5 churches, Methodist, Presbyterian, Baptist, Catholic and Episcopal, and good graded schools are sustained. There are also grain elevators, hotels, flour mills,

HURON. In February, 1881, this town, the seat of Beadle county became incorporated, the first settlement on the site having been made the previous April. It is located on the west bank of the James or Dakota river and at the junction of the D. C. div. C. & N. W. Ry, with the O. br. of same road. It lies upon a smooth, gently sloping prairie, the streets are broad and lined with good business blocks, and the balance of the town site is dotted with large and comfortable dwellings which would be a credit to a much older city. Almost every line of business is represented by live men. Here we find a bank, 3 hotels of which the Wright House is deservedly the favorite, 2 newspapers, the *Times* and *Tribune*, several hardware, grocery, dry goods, drug, furniture, and other stores, besides artisan and mechanic shops. The offices and machine shops of the D. C. div. C. & N. W., are located here, and already employ some 150 men. The town sustains 3 churches, Presbyterian, Baptist and Episcopal, and good graded school, and has a population of 1,000, which is rapidly increasing. The surrounding country is eminently adapted to agricultural purposes and is fast settling up with a good and substantial class of farmers. The shipments of the place are chiefly grain, live stock, and produce. Land is valued at $6 to $20 per acre for improved. Exp., Am. Tel., W. U. Mail, daily. Stage tri-weekly to Mitchell; fare, $3. JAMESTOWN. Incorporated as a village in 1881, is the county seat of Stutsman county, on the J. br. N. P. R. R. The power supplied by the James river is used to run the Jameston Rolling Mills and Brewery. Two churches—Methodist and Presbyterian—and good graded schools are sustained. The place contains a hotel, a grain elevator, an opera house, several general and special stores and mechanics workshops, a population of 1,000, 3 banks, a daily and weekly newspaper, and exports wheat and oats. The farming land in the vicinity is highly productive and well settled, and the town of Jamestown is steadily on the increase. Exp., N. P. Tri-weekly stage to Grand Rapids. Mail, daily. Mr. F. C. Kelley, postmaster.

MADISON. To one unaccustomed to Western push and energy the growth of this town would seem phenomenal. Little over a year ago what is now a thriving city of 650 inhabitants was simply an ordinary patch of native pasture. It is the seat of justice for Lake county, and is the western terminus of the M. br. S. M. div. C., M. & St. P. Ry, surrounded by a rich agricultural country, into which a constant stream of settlers is pouring. Supported by an intelligent and enterprising class of citizens, fully alive to the best interests of the city, and working harmoniously together for the advancement of the place, Madison promises to become one of the most important cities in southeastern Dakota. PIERRE. Or Fort Pierre, as the place is even now more generally called, is situated on the north bank of the Missouri river, at the terminus of the D. C. div. C. & N. W. Ry. It is about midway between Yankton, on the south, and Bismarck, on the north, being 300 miles from the former and 350 from the latter place. On the organization of Hughes county, in November, 1880, Pierre became the county seat. Its site is handsome, and excites admiration. It is the nearest railroad point to the Black Hills, and all goods destined for that region, either by railroad or river, are shipped via Pierre. Although of but recent origin, its progress has been wonderful. It contains now a population of 1,000, has many stores, including dry goods, hardware, grocery, drug, furniture and others, as well as mechanics' workshops; 3 hotels are here, the Reed House being the most popular; 2 newspapers are published, the *Journal* and *Signal*; a brewery is operated, and a flour and grist mill are in request and would receive support. Limestone exists in abundant quantities in the adjacent hills, brick yards have been established, and the surrounding country is productive and fast settling up. The exports consist of live stock and produce, with some grain. Three churches are sustained, and a good school is in the town. Exp., Am. Tel., W. U. The N. W. E., S. & T. Co. have a daily stage line running to Deadwood, and connecting there with others for points in the Hills. Stages also to Yankton and Bismarck tri-weekly. Mail, daily. T. M. Allen, postmaster.

the nearest railroad point, on the I. & D. div. C., M. & St. P Ry. Mail, semi-weekly.

SIOUX FALLS. An enterprising vigorous and rapidly growing village of 4,000 inhabitants, situated in the southern part of Minnehaha county of which it is the seat of justice, on the line of the C., M. & St. P. Ry, at the point of intersection of the C., St. P., M. & O. Ry, and on the south bend of the Big Sioux river. The falls are within half a mile of the business centre of the city and are in power only second to those of St. Anthony at Minneapolis, their supply is constant the year round and their picturesque beauty can be compared to nothing in this country. The Sioux Falls water power company have erected an immense stone mill 80 by 100 feet, seven stories high, at a cost of $350,000, and having a capacity of 1500 barrels daily. The company's improvements on the Falls when completed will give a head of 70 feet, and 2,500 horse power. Six other water powers exist within a few miles. The Queen Bee is the third largest flouring mill in the world, and in fine machinery and quality of flour produced is second to none. The city contains 2 banks, the Citizens and First National, a daily newspaper, *The Press*, which also issues a weekly edition, and the *Weekly Argus*. The religious and educational advantages consist of 7 churches, Methodist Episcopal, Baptist, Unitarian, Adventist, Episcopal, Catholic and Congregational, and 3 more are soon to be erected. The graded school building is a fine structure and cost $16,000. There are stone quarries in the vicinity and among the noticeable buildings of the place are the Howard and Taylor block, built of solid brick, iron and plate glass fronts elegantly fitted and furnished with every convenience for the transaction of business. There are general hardware, grocery, boot and shoe, and other stores, several machine and mechanic shops, 3 hotels, the leading of which is the Cataract House, which has been twice enlarged and is being re-built to meet the requirements of the traveling public. The shipments of this locality are flour, grain, live stock, building stone and produce. Farming land is valued at $5 to $7 for wild, and $10 to $18 for improved. Exp., Am. and U. S. Mail, daily. Alfred T. Fleetwood, postmaster.

THE RICHLAND COUNTY

GAZETTE

Wahpeton, Richland County, Dakota.

E. K. MORRILL, - EDITOR AND PROPRIETOR

This paper was established in 1879, and now ranks as one of the best Weeklies published in Dakota. The GAZETTE Office contains a very extensive outfit of Presses and other machinery, and a large assortment of excellent printing material for newspaper and job work. The town where it is published is as well located as any in Dakota, and the circulation of the GAZETTE extends to many of the States, Territories and Provinces of North America. It aims to approach all subjects with candor and truthfulness, giving its readers reliable information about the wonderful country of the great Northwest. Sample papers sent on application.

ward this season. Three miles west of the town is Lake Kampeska which is one of the handsomest sheets of water extant, and is already being utilized as a place of resort for invalids and sportsmen. The town is elegantly laid out, its business blocks are handsomely built and it boasts some fine private residences, a steam feed and also flouring mill are here, and all the leading trades and professions are well represented and buildings and improvements of all kinds go steadily forward. It has good religious and school facilities, consisting of 4 church edifices and a $4,000 graded school house, with 3 teachers and a regular attendance of 350 scholars. It is in the centre of a splended argricultural country, the products of which are grain, live stock and produce, which are exported from here in large quantities. Improved land in the vicinity brings $10 to $25 per acre; unimproved $5 to $10, and is constantly increasing in value. Since the foundation of Watertown, its growth has been simply marvelous. Its population to-day is 1500, and if a delightful location and patriotic and enterprising class of business men will make a city it has a brilliant future in store. Exp., Am. Tel., W. U. YANKTON. A beautiful city of 4,000 inhabitants, the seat of the territorial government of Dakota and judicial seat of Yankton county, is located on the north bank of the Missouri river, in the midst of a prairie country, yet surrounded on every side by gently sloping hills, while southward across the river, in Nebraska, stretches the broad valley of the Missouri. All this territory, which is rapidly settling up, is tributary to Yankton. It is also the rendezvous of the steamers plying on the Upper Missouri, and is the present terminus of the S. C. & D. div. of the C., M. & St. P. Ry, which will be extended north 28 miles to Scotland during this year (1882). A new corporation—the Yankton and Le Mars railroad—has recently been organized, the object being to build a road to Le Mars, Iowa, 65 miles south, which will at that point connect with the Illinois Central. The Central Pacific has also surveyed a branch of their main line from Corrine, Utah, to Yankton, and it is highly probable that the C. & N. W. Ry will also construct a branch to this city. It contains 9

churches, good public schools, hotels, social, fraternal and benevolent organizations, many elegant stores and private residences, 3 banks, steam flouring mills, and a full representation of all the leading trades and professions. The *Daily Press* and *Dakotian*, the *Weekly Herald* and the *Free Press* are published. The territorial insane asylum is located here, and the Congregationalists are erecting a college near the city. The system of water works is by means of a large artesian well, situated on the adjacent high ground, giving about 50 feet fall. The country around is a fine agricultural and stock raising region, and the shipments, consisting of grain, live stock and produce, are very large. It has stage communication with all parts of the county, and is the postal focus of a large part of southern and southeastern Dakota. Exp., U. S. Mail, daily. A. H. Howard, postmaster.

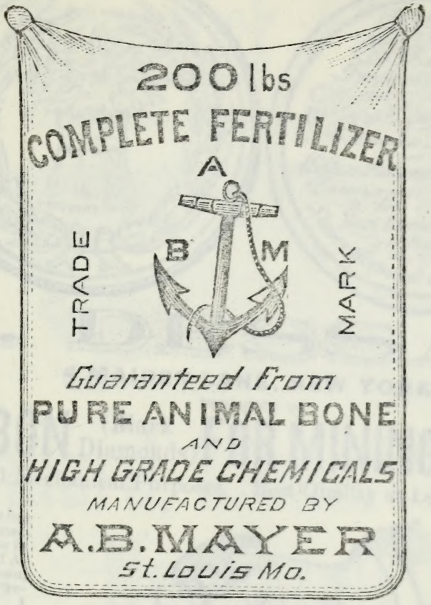
To Farmers and Gardeners!

Pure Animal



Bone Fertilizers

THIS BRAND ON EVERY BAG: NONE GENUINE WITHOUT.

The above brand is made from DISSOLVED PURE ANIMAL BONE, and is guaranteed FREE from South Carolina Rock or any other mineral phosphate deposit. The splendid results obtained in every case where used, is a guarantee that it will give entire satisfaction. Knowing the great desire among the farmers and gardeners of our section of the country for a fertilizer COMPLETE in all ingredients necessary for plant growth, I have, at considerable expense, visited the East, where I secured the services of a gentleman who has devoted thirty years of his business life to the manufacture and sale of fertilizers. The chemical ingredients used in the compound have been selected by him with care, and I present to the farming public a fertilizer complete in EVERY RESPECT, and with its BONE PHOSPHATE of lime, ALL from GENUINE, PURE ANIMAL BONE, and GUARANTEE it not to contain one ounce of the South Carolina rock, called bone by the fertilizer manufacturers, large amounts of which are being sent West to be used in the adulteration of fertilizers.

Animal Bone Fertilizers, Stable Manure and Lime are the only means by which land can be permanently improved. FERTILIZERS, the phosphate of lime of which is obtained from South Carolina rock or mineral phosphates may produce A SINGLE good crop, but their action for good then ends.

FERTILIZERS containing BONE phosphate of lime from GENUINE ANIMAL BONE, not only produce good crops, but their action for good is seen for YEARS after the application, and if used a few seasons the land becomes GREATLY IMPROVED in its productive ability. In speaking of BONE phosphate of lime, I mean that obtained from PURE ANIMAL BONE, and not that EQUAL TO? BONE? phosphate of lime, of the present chemical analysis, or the dissolved South Carolina rock, marked and sold as dissolved bone.

Bone Fertilizers

Animal Bone Dust

THIS BRAND IS MADE FROM PURE ANIMAL BONE, AND IS GUARANTEED.

The above brand is made from PURE ANIMAL BONE, and is guaranteed free from North Carolina Marls or any other mineral phosphate deposit. The splendid results obtained in every case where used, is a guarantee that it will give entire satisfaction. Knowing the great desire among the farmers and gardeners of our section to use a fertilizer containing no adulterations, and necessary for plant growth, I have, at considerable expense, visited the Mail, where I secured the services of a gentleman who has devoted thirty years of his business life to the manufacture and sale of fertilizers. The chemical ingredients used in the compound have been selected by him with care, and I present to the farming public a fertilizer complete in every respect, and with its pure phosphate of lime, are free from acid, free action upon, and GUARANTEED NOT to contain one ounce of the South Carolina rock, called bone-ash, the fertilizer manufacturers' large amounts of which are being sent West to be used in the adulteration of fertilizers.

Animal Bone Fertilizers, Bone Dust and Lime are the only means by which land can be permanently improved. Fertilizers, the principle of which is their obtained from South Carolina rock or mineral phosphates may produce a crop good crop, but their action for good then ends.

Pure Bone containing many phosphate of lime (from decayed animal bone, and only portions good crops, but their action for good is over for years after the application, and if used a few seasons the land becomes entirely IMPOTENT to be productive ability. In speaking of pure phosphate of lime, I mean that obtained from pure animal bone, and not that found for example of lime, or the present chemical analysis, of the dissolved South Carolina rock, mislead and sold as dissolved bone.

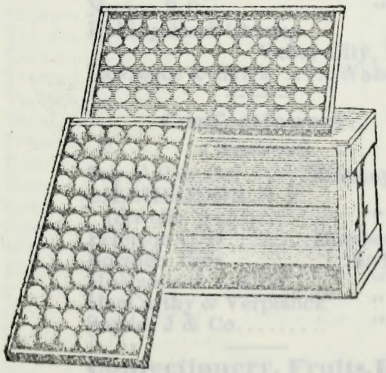
Batchelder's Ventilated Egg Case.



(Patented Feb. 15, 1881.)

Indispensable to Merchants

SHIPPERS and PRODUCERS.

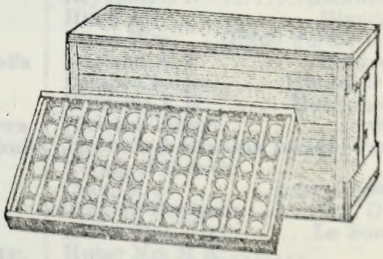


FIG. 1. FIG. 2.

The Cheapest and Best. The Only Practical Case.

Constructed with trays, which are made in reversible halves, the manner of construction and holding the egg rendering breakage, oscillation and addling in transportation impossible, and admits of counting and candling and transfering from tray to tray or case to case without rehandling. The trays are held in place by improved fasteners, as seen in cut at ends of case. Three sizes—Shippers', 30 doz. Farmers', 18 and 12 doz. sizes. Liberal discount in large lots. Send for descriptive lists of our storage case—the cheapest case in the market. Fig. 1 shows one drawer out of case with the eggs placed ready to receive its other half, which is seen resting on top of case. Fig. 2 shows the drawer filled with eggs ready to place in case. The Direct Line to Chicago

FROM ALL PRINCIPAL POINTS IN

Northern Illinois, Wisconsin, Iowa, Minnesota and Dakota.

CHICAGO, MILWAUKEE & ST. PAUL

RAILWAY CO.

Was the first to enter St. Paul and Minneapolis with a Railway from the East or South, and it has for over ten years been running "Solid Trains" from Chicago and Milwaukee to both St. Paul and Minneapolis (as well as to all principal points in the section of country penetrated by its vast system of roads), while it has always been, as it is to-day and always will be, immeasurably in advance of all competitors in all the details of a First-Class Trunk Line. It is the

Only Company who own Through Unbroken Lines from St. Paul and Minneapolis to Chicago.

Between which points it offers no less than

THREE DIFFERENT ROUTES,

VIZ:—

One via Milwaukee, La Crosse and Winona;

One via Milwaukee, Madison, Prairie du Chien, North McGregor, Calmar, Austin, Owatonna and Faribault;

One via Elgin, Lanark Junction, Dubuque, McGregor, Calmar, Austin, Owatonna and Faribault.

Through Tickets are good over either of these Three Lines.

THE CHICAGO, MILWAUKEE & ST. PAUL COMPANY has become famous throughout the world for its perfect steel rail tracks, the beauty of its passenger equipment, the regularity with which its trains are run, the admirable meals served in its dining halls (which are also owned by the Company), the numerous attractive Summer Resorts along its lines, and the grandeur of the scenery, which gladdens the eye of the traveler every foot of the way, from its Great New Union Depot at Chicago to its furthermost Termini in the mighty Northwest.

THE

AMAZON BOILER COMPOUND

Is purely Vegetable, made from Roots, Barks and Plants.

It removes every particle of incrustation, is beneficial to the iron in preventing its corroding and oxidizing, reducing friction in the machinery by producing a fine vegetable oil when subjected to a high temperature; being a vegetable stringent and free from all injurious alkalis, corroding acids and mineral salts, etc. It never foams, or injures packing, and is the only purger ever used by the navies of England, France, Russia and the United States. For over 20 years it has met the approval of all who have used it; and is always mentioned favorably by scientific men and papers, as strictly vegetable and beneficial to the iron as well as removing scale. All our Compound carries the trade-mark: "AMAZON."

MINNESOTA MANUEL,
By HIRAM HAYES, Esq.
A Complete Guide for County, Town and School Officers, with Forms.
Lawyers will find this work very valuable to them

STATE OF MINNESOTA,
DEPARTMENT OF PUBLIC INSTRUCTION,
ST. PAUL, December 13, 1879.

WEST PUBLISHING CO.

The carefully collected decisions of the Attorneys General on the School Law, the notes and references of Mr. Hayes, and the full table of forms for the transaction of school business, render this volume of *special* value to school officers.

Having no pecuniary interest in the book, I can properly urge every county superintendent of schools to secure a copy, and to recommend the work to school trustees. It answers many of the questions which have been heretofore referred to this office. Every school district should procure a copy for the use of its trustees.

D. BURT, Supt. Pub. Instruction.

STATE OF MINNESOTA,
ATTORNEY-GENERAL'S OFFICE,
ST. PAUL, December 23, 1879.

To WEST PUBLISHING CO.:

I take pleasure in recommending to the public the "Minnesota Manual," recently published by your company. To my knowledge Col. Hayes expended a great deal of time and labor in the preparation of the same, and from my examination of it I believe he did his work thoroughly and accurately. To state, county, town and school district officers I regard it as a very valuable work. To the legal profession it must be a great convenience. Very respectfully,

GEO. P. WILSON, Attorney General.

PRICE—In Paper, $2.00; in Sheep, $3.00.

THE
FEDERAL REPORTER
IS THE
ONLY PUBLICATION IN THE UNITED STATES
DEVOTED EXCLUSIVELY
To the prompt and complete reporting of the current opinions of
U. S. CIRCUIT AND DISTRICT COURTS

The opinions are procured from special reporters, or the clerks and stenographers of the respective courts, and are published *with the approval of the judges*, so that the publication will form a valuable series of

The Reports of the Federal Courts.

It furnishes *promptly* and *without abridgment* both **oral** and written opinions, as well as such **judicial** charges as are deemed of sufficient interest to warrant publication.

The matter published embraces decisions both in **Law** and **Equity**, and relates to cases of both a **Civil** and **Criminal** character.

The questions considered in these opinions are both of **local** and **general** interest, and concern not only the construction of the Federal Statutes, and the Rules of Practice in the Federal Courts, but also the practical operation of large corporate interests, the interpretation of the statutes of the several states, and the application of fundamental principles of the common law.

Each opinion is carefully revised by the editor before publication, and a head note duly prepared, when the same is not furnished by the *judge concerned in the case*.

A list of the cases reported, and of the subjects considered, appears on the cover of each number, while each volume contains full tables of the cases reported and cited, as well as an accurate and complete index.

In order to secure the prompt publication of the opinions, the **Federal Reporter** is issued once in each week, and the size of the number is adapted to the amount of matter received and then ready for publication. In pursuing this plan the number of pages in each issue is necessarily unequal. Each volume, however, is uniform in size; constituting a neat octavo of about one thousand pages, and as many are issued in the course of a year as circumstances may require.

The **Federal Reporter** is edited by **Robert Desty, Esq.**, and annotated by the leading text book writers of this country.

The **Federal Reporter** is now being **Digested by Benjamin Vaughn Abbott, Esq.**, in Abbot's National Digest.

Subscription begins at date of receipt, or commencement of current volume.

The subscription price is $10.00 per year in advance. The publishers will bind the volumes in best law sheep, for subscribers, for 75 cents each. Back volumes, bound in best law sheep, $5 each.

LIST OF PUBLICATIONS OF WEST PUBLISHING CO.

WELLS, author of *Questions of Law and Fact; Instruction to Juries, and Bills of Exceptions; Res Adjudicata and Stare Decisis; and Separate Property of Married Women.* A new work on a new subject. 8vo. 700 pages. Bound in best law style. Price $5.50, net. This work is offered to the profession under the belief that a treatise on the subject of jurisdiction has long been a *desideratum.* It has been in preparation for more than four years, and is the result of the unremitted study and research of the learned author during that period of time. It has involved the investigation of all the decisions upon the subject of jurisdiction to the date of its issue, and more than three thousand leading cases are cited and discussed in the compass of the volume. One vol. Price $5.50.

Index to Federal and Northwestern Reporter.

Being a complete index of the first eight volumes of the Federal and the first nine volumes of the Northwestern Reporter. *Nearly ready.*

LOCATED AT

CHICAGO, ILL.

JOINT BOARD OF MANAGEMENT:

HON. THOMAS HOYNE, LL. D. - - President.
JAMES FRAKE, A. M., LL B., - - - Secretary.
HON. HENRY BOOTH, LL. D., - - Treasurer.

IN BEHALF OF THE UNIVERSITY OF CHICAGO:

HON. THOMAS HOYNE, LL. D. | GALUSHA ANDERSON, D. D.
HON. HENRY STRONG, LL. D. | FREDERICK A. SMITH, A. M.

IN BEHALF OF THE NORTHWESTERN UNIVERSITY:

JAMES FRAKE, A. M., LL. B. | ORRINGTON LUNT.
OLIVER H. HORTON, LL. B. | OLIVER MARCY, LL. D.

FACULTY.

HON. HENRY BOOTH, LL. D.
HON. WILLIAM W. FARWELL, A. M.
HON. MARSHALL D. EWELL, LL. D.
HON. HARVEY B. HURD.
NATHAN S. DAVIS, M. D., LL. D.

The Collegiate year commences on the third Wednesday in September, and is divided into three terms of twelve weeks each. A graded course of instruction in the science and practice of Law is afforded, requiring two years of thirty-six weeks each for its completion. The diploma upon a full course of study pursued in the College admits to the Bar of Illinois without examination. Students are admitted to the Senior Class upon showing requisite attainments and previous term of study either in some other Law School or a Law Office, and may be graduated upon a year's attendance.

The course of study is thorough and comprehensive, and the advantages afforded in this School for acquiring knowledge of jurisprudence and making preparation for the Bar are at least equal to those of any other in the United States.

Numerous Courts are constantly in session within the distance of a block from the school rooms, giving the students full opportunity for seeing the rules and principles which they are learning applied in practice. They have also access to the Library of the Law Institute, containing over fourteen thousand volumes, being the best law library in the Western States.

TUITION:

$75 PER YEAR, OR $30 PER TERM,

Payable in advance—no extras.

Students are received for any period on payment of proportionate tuition.

For Circulars giving full information, address

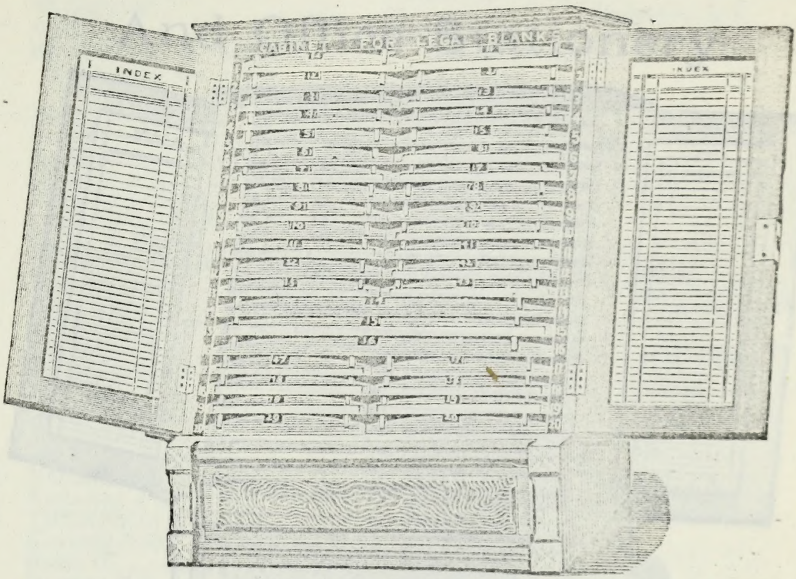
MANUFACTURERS OF

CABINETS FOR HOLDING LEGAL BLANKS

THIS CUT SHOWS ONE OF OUR CABINETS OPEN.



STYLE B, SIZE 20×30, WILL HOLD ABOUT SEVENTY DIFFERENT KINDS OF BLANKS, BY USING DIVISION SHEETS.

Our Cabinets are entirely New and Novel in Design, and very attractive as a piece of Office Furniture, and have received the commendation of all who have seen their superiority over all methods heretofore in use. Each kind of Blank has its own receptacle, and can be found instantly.

You do not handle any other than the desired blank or paper, thereby keeping your stock clean and straight until used.

The saving of time and annoyance alone will commend itself to every one who uses blanks of any kind and will compensate for the cost in a very short time.

We arrange Cabinets to suit the requirements of your office, in other words, furnish cases for any size blanks you may wish to accommodate from 24 to 100 or more, if desired.

The arrangements for keeping papers in cases pending, will commend itself to every lawyer.

Its practical utility commends itself. It saves time, labor and patience. It is concise, convenient and useful. It is of necessity required in every office where order is a desideratum.

And no Lawyer, Clerk, Judge, Real Estate Agent or other official can afford to do without it.

Send for our new descriptive and illustrated catalogues, giving styles and prices.

DAVID McDONALD, ESQ. CHICAGO, NOV. 1, 1881.

My Dear Sir,—We, the undersigned, having examined your Cabinet for Legal Blanks, unhesitatingly pronounce it most admirable and excellent for the purposes for which it is designed. It deserves a place in every lawyer's office.

Very respectfully,

LUTHER LAFLIN MILLS, State's Attorney Cook Co.
G. GILBERT GIBBONS.
JACOB GROSS, Clerk Circuit Court.
C. R. MATSON, Clerk Cook County.
JOHN J. HEALY, Clerk Superior Court, Cook County.
S. F. HANCHETT, Clerk Cook Co. Probate Court.
O. L. MANN, Sheriff Cook County.

Campbell & Coleman, Boiler Makers, Manufrs. of Smoke Stacks, Breechings, and all kinds of Sheet Iron Work, Minneapolis.

THE FARMERS' REVIEW.

The only paper having a properly Systematized Crop Report Department; publishes weekly crop reports, furnished by over one thousand crop correspondents throughout the Northwest; the most reliable and complete market reports. Invaluable not only to every farmer who wants to make money, but to every business man.

EIGHTY-SEVEN PER CENT. of our total exports are products of the farm, and no one, whatever his business may be, can afford to be indifferent to our agricultural interests. Every one should keep posted on the condition of the crops, upon which the prosperity of the country so largely depends. Grain dealers, especially, need our Weekly Crop Reports.

THE FARMERS' REVIEW is a well printed, sixteen-page paper, neatly pasted and trimmed, and publishes frequent supplements. Published every Thursday. Liberal commissions to canvassers. Sample copy free. Address,

FARMERS' REVIEW CO.,

Chicago, Illinois.

The Lumberman's Hand Book.

New Edition. Revised, Enlarged and Illustrated.

NOTE THE CONTENTS:

Lumber Inspection and Grading. Log Measurements.
Shingle Manufacture and Grading.
Retailer's Ready Reckoner.
Digest of Mechanics' Lien Laws.
Map of the Chicago Lumber District.

Rural Architecture—A Series of Practical Plans for Cheap Buildings; comprising Perspective Views, Ground Plans and Specifications of the amount of material required for each; Cottages and other Dwellings, Churches, Schools, Barns and other Outbuildings. Rules for determining the Number of Shingles, or Lath and Plastering required to cover a given Surface; to Determine the Pitch of a Roof and Length of Rafters, Illustrated by Diagrams; the Number of Brick Required to Build a Wall or Chimney; the Quantity of Stone, Quarry or Rubble to Build a Wall of given Dimensions; How to Construct a Box or "Nebraska" Sill, for either Stone Wall or Posts, with Diagrams, etc.

Planing Mill Machinery—Its Selection, Arrangement and Care, with Diagrams, and a vast amount of miscellaneous information of great value.

Handsomely printed, and bound in convenient size for the pocket. Price, by mail, post paid, Paper Covers, $1.00; *Full Leather and Gold, very durable,* $1.25.

HICKORY BOARD RULES,

The finest assortment to be found anywhere, all made of the toughest second-growth Michigan Hickory, figures burned indelibly and plainly into the wood—steel or brass head.

HICKORY LOG RULES,

for any of the standard scales in use. Exclusive manufacturers of the "LUMBERMAN'S FAVORITE," the only rule with which you can be sure the lumber sawed will hold up to the scale. It is being universally adopted wherever tried.

THE STANDARD MOULDING BOOK,

A Catalogue of Mouldings, Brackets, Doors, Windows, Frames, etc., of Standard and Special Sizes and Designs, for the use of Manufacturers or Dealers. ADOPTED BY THE MANUFACTURERS OF THE WEST.

The Universal Price List for Sash, Doors and Blinds,

Adopted by the Northwestern Association, and used by leading manufacturers; furnished in any desired quantity, guaranteed to be accurate in prices. This list contains all the regular sizes of Sash, Doors and Blinds, and is handsomely printed and bound in any style to suit.

The above are a few of the leading specialties published and for sale by the

Northwestern Lumberman.

Send for full Catalogue and list of Special Offers.

Every lumberman or builder should subscribe for the **LUMBERMAN**, a mammoth weekly, containing all the lumber news and market reports. **$3 a Year.**

JOHN C. HIGGINS

Manufacturer and Dresser of

165 West Kinzie St.,

CHICAGO, ILL.

Picks will be sent on 30 or 60 days' trial, to any responsible miller in the United States or Canadas, and if not superior in every respect to any other pick made in this or any other country, there will be no charge, and I will pay all the express charges to and from Chicago. All my picks are made of a special steel, which is manufactured expressly for me at Sheffield, England. My customers can thus be assured of a good article, and share with me the profits of direct importation. References furnished from every State and Territory in the United States and Canada. Send for Circular and Price List.

To Doctors and the Public:

Having spent years in public hospitals, I became aware of the necessity of a **Private Lying-in Home.** Therefore I erected this building for the especial purpose of protecting unfortunate women from publicity during pregnancy and confinement, where all wishing to avail themselves of home comforts, will not be disappointed in patronizing me. The greatest care and medical attention at reasonable terms. Also homes found for babies when desired. Parties of respectability wishing to take a fine babe as their own, call or correspond with me at office and residence.

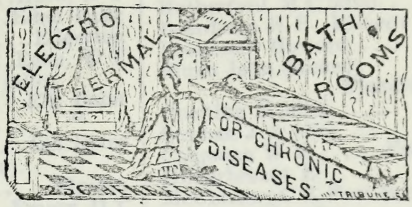
MINNEAPOLIS

Electro-Thermal and Improved Turkish Baths

—AND—

MEDICAL INSTITUTE,

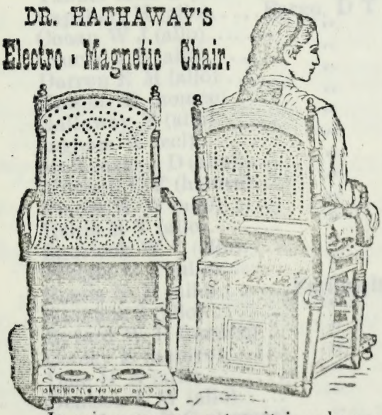


No. 256 Hennepin Ave.

MINNEAPOLIS, MINN.

DR. R. FREEMAN, Eclectic and Magnetic Physician and Proprietor.

DR. HATHAWAY'S
Electro - Magnetic Chair.



The object of this invention (secured by Letters Patent No. 171,934, dated Jan. 11th, 1876) is to provide a simple and convenient apparatus for the transmission of electrical currents through all parts of the human body and in different directions. It consists of a chair (or a bed, lounge, or water bath may be used) provided with a suitable battery, wires and switches, by means of which currents of electricity may be passed through the body of the patient sitting therein, such currents being under the absolute control of the attendant, who can send them at will, first in one direction, and then in another, as desired.

The special application of this powerful remedial agent to any particular portions of the person has, thus far, been attended with great inconvenience. So far as known to me, it has never been done without the removal of the patient's clothing, and the passing of the current by means of a sponge or like substance over the surface of the body.

In using my apparatus, it is only necessary that the hands and feet should be bared. The patient sits comfortably in a chair, and when the switches are placed in a proper position, the current is made to enter the right foot, pass up the right leg, cross through the pelvis into the left leg, and down out of the body by the left foot. If now the switches be changed, the positive current enters the left foot, makes the circuit, and goes out of the right. In this way I am enabled to pass the electricity through the pelvic portions of the body, which heretofore it has been almost impossible to reach.

In a similar manner, the proper connections being made, the currents will enter the body by either hand, pass up the arm, cross the thorax to the other arm, and leave by the opposite hand. The switches may also be placed so that the electricity will enter both hands, pass through the entire system, and out by both feet.

The management of this apparatus is easily learned, and as the changes are made at intervals of five minutes, one attendant can, without difficulty, attend to four chairs at the same time. For full instructions and price, address

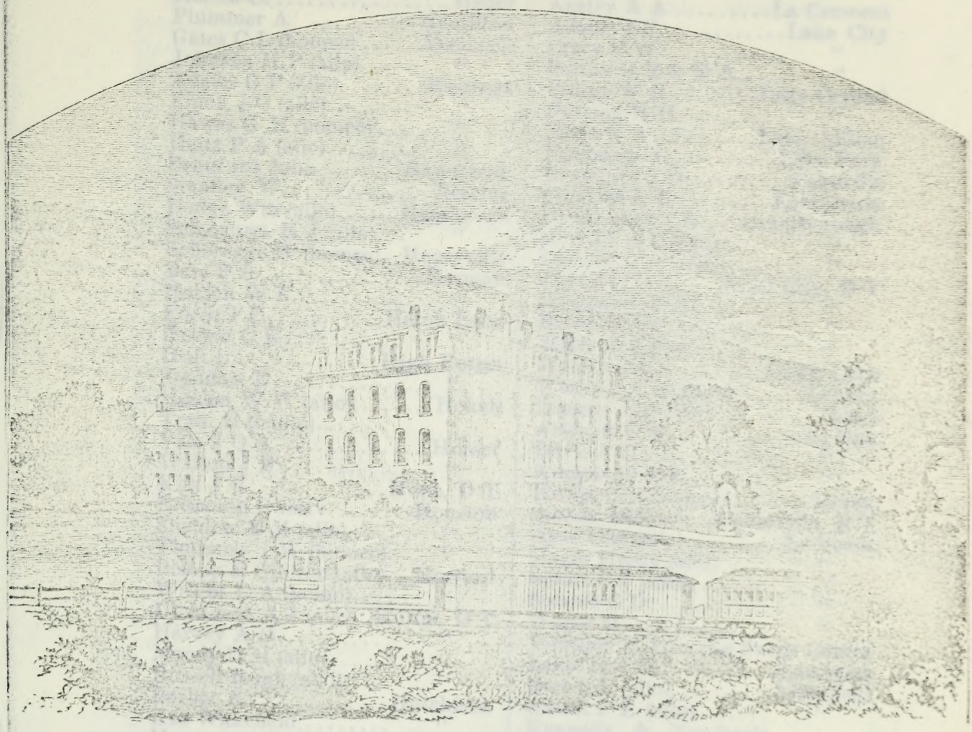
ARCADIA COLLEGE



AND

Academy of the Ursuline Sisters

ARCADIA, IRON CO., MISSOURI.

There is no institution in the West so delightfully situated, and so admirably adapted to the needs of young ladies seeking a refined and solid education, as the convent of the Ursuline Sisters, formerly known as "The Arcadia College." Besides the old College building, which is now used for domestic purposes, there is the large brick building completed expressly for a boarding school, capable of comfortably accommodating 200 pupils. It is furnished with every modern improvement, has bath rooms, etc., on every floor, for the convenience of the boarders, and is to be lighted by gas manufactured on the premises. A magnificent hall, with a seating capacity for 600 persons, supplies an excellent means of training young ladies in vocal and instrumental music, as well as elocutionary and calisthenic exercises, which strengthen and develop both mind and body. The grounds about the Convent are large and beautifully laid out, affording every facility for out door exercise. As for health, parents may rest assured there exists no healthier place than the delightful valley of Arcadia, well known as the most fashionable summer resort in the vicinity of St. Louis. In view of the recent distressed condition of the country, the Sisters have reduced their terms, in so far as it is possible to maintain a first-class boarding school. The Academic year consisting of two sessions of five months each, begins on the first of September and ends on June 30. *Pupils will be received at any time, and charged only from the day of entrance.*

TERMS.

Board and Tuition, including instruction in useful and ornamental Needle-work, payable in advance, per session $75 00
Piano, with use of instrument for practice, per quarter $12 00
Drawing and Painting, in Crayon, Water and Oil, per quarter 5 00

For instruction in French, Vocal Music, the Organ, Harp, Guitar and Zither, also in Wax, Muslin and Paper, Worsted, Spice or Hair Flowers, there will be extra charges made. For further particulars apply to

The "Helvetic" PURIFIER extant. Is Guaranteed to do better work than any Sieve or Air Purifier John Fiechter, Son & Co., Minneapolis.

The Richard T. Hambrook Mfg. Co.

(Successors to Sherwood School Furniture Co.)

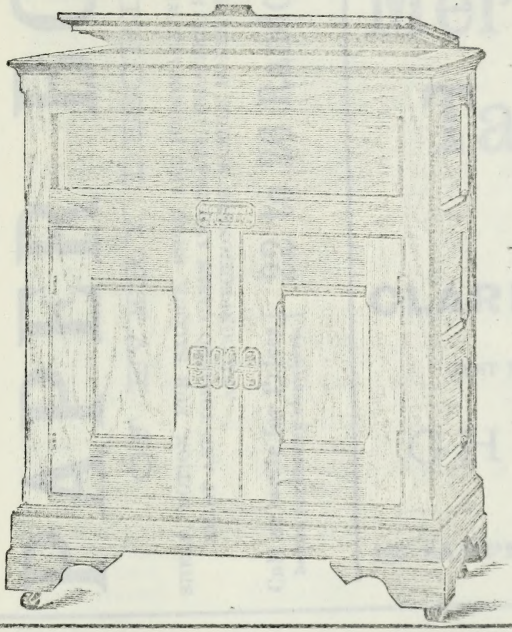
ESTABLISHED 1856.

Factories, 213 to 219 S. Canal St., CHICAGO, ILL., and BELDING, Ionia Co., Mich.

MANUFACTURERS OF

SCHOOL, CHURCH, HALL AND OFFICE FURNITURE

ALSO REFRIGERATORS.



THE

PERFECTION

Refrigerator

Is an invention of such merit as will commend itself at once. It is almost as cheap as the ordinary pine painted boxes, and is THE ONLY solid hardwood Refrigerator in the market which is sold so low that every housekeeper can afford to buy one.

For preserving food, economy in the consumption of ice, perfect circulation of cold air through the provision chambers, the beauty in its architectural design, the thorough work in its construction (*no Staining, Graining or Cheap Veneer Work*) has no equal. The cabinet is made of hardwood, and finished in a style which would make it an ornament to any dining room.

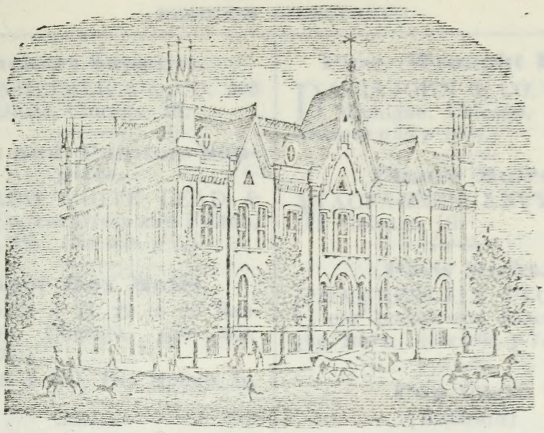
THE CHICAGO MEDICAL COLLEGE

Medical Department of the Northwestern University.



Corner of Prairie Ave. and Twenty-Sixth Street.

CHICAGO, ILLINOIS.

This College adopted, at its organization, a graded course of instruction, and was the first in this country to classify its pupils according to time and progress in study, as is habitually done in literary and other scientific institutions.

For this purpose, the several branches embraced in the curriculum are divided into three series or groups, corresponding with the three years professional study; and are taught in *three consecutive Annual Courses of Lectures.*

THE COLLEGIATE YEAR embraces a regular Annual Session for Students of SIX Months, and a Special Session of ONE Month for Practitioners and Graduates only.

THE REGULAR ANNUAL SESSION commences on the last Tuesday in September, and continues until the last Tuesday in March following, when the public commencement exercises are held.

THE SPECIAL COURSE FOR PRACTITIONERS commences on the Wednesday following the last Tuesday in March, and continues four weeks.

A READING AND RECITATION TERM, in connection with Clinical instruction, will be arranged for those students who may wish to remain in the city. It will commence immediately after the close of the annual term on the last Tuesday in March, and continue until June 1st.
